

## SHEAR OPERATOR - HELPER

**Davis Steel Services is a Fabricator with Lasers, Shears & Plasma Tables, and Press Brakes. We fabricate most any kind and size metal to suit the customer's needs as an individual or company. We are known for our excellent customer service. Therefore, we are looking for employees who can follow through with providing excellent customer service connected to their area of expertise.**

- A Shear Operator Helper's job is to assist the Shear Operator in any and all of the following job requirements:
  - Cut jobs for that day as per the schedule,
  - Check material with drawings to make sure it matches, check quantity of parts then run material.
  - Ability to read a tape measure & Micrometer. Accuracy is extremely important so there is minimal waste from cutting.
  - Crane experience is very helpful.
  - Forklift experience is very helpful.
  - Non-Smoking Premises
  - Non air-conditioned building
  - The scheduled start time is 6:00 a.m. until the job is done. However, this is subject to change depending on the Supervisors instructions regarding the job flow and time constraints for getting certain jobs out. Some early mornings, late afternoons, and some Saturdays are required.
